SALEM SCHOOL BAND TO RAISE MONEY BY HOP

Money For Uniforms

The band will sponsor a benefit dance December 2-, during Christmas vacation for the purpose of raising money to get new uniforms.

The dance will be open to all high school pupils, alumni, and guests. It will be held in the gym, and will start between 8:00 and 8:30 o'clock. The admittance is 50 cents a couple. Tickets may be obtained from any one of the band members. The music will be supplied by the Merry Monarchs of Music.

The net proceeds taken in will go to help buy a complete new set of uniforms for the band. The Board of Education has offered to match dollar for dollar of any amount the band will make. The band's goal is five hundred dollars. It is hoped that the students will help the band by coming to its party and having a gala time.

QUAKER DEBATERS IN TWO CONTESTS HERE THIS MORNING

Salem debaters clashed with those of Challeray, Pa., in two non-decision debates this morning at 10 a. m. The debaters of both squads negative and affirmative were involved in the frays. One of the debates took place in the auditorium while the other was being held in room 309. Members of the Salem squads were, affirmative: Paul J. Smith, Troy Cope, Jr., Kenneth Leipper, and Ruth Ruggy. The negative is composed of Paul Strader, Jr., Vera Yoder, Mary E. Sharkey, and Arthur Brian.

Debate coach Mr. Guiler explained that these two debates furnished both experience and practice for the teams.

VOLUNTEER TO HELP SCHOOL PROGRESS

Did you ever realize how important social life is in your high school? Many pupils hold back and do not take part in the social activities of the school.

Students lose interest in the school to which they are going for one reason; that they do not take a part in the activities. They should enter clubs, try out for plays, or step forward when their faculty advisor calls for volunteers. This would be a good way for them to regain an interest in their school. The Personal Opinion column several weeks ago carried an article stating that many students do not get their names in the Quaker. One reason is that they do not take part in school activities, therefore they do not receive any credit.

Let us all strive to help our school to progress in any way we can. When help is wanted, volunteer to do it. Don't let the same students do all the work. You and everyone else are just as capable as they are.

BOARD SPONSORS C. W. A. PROGRAM

The Civil Works Administration, branch of the N. R. A., in accomplishing its main purpose,—that of providing work for many men, including men of our own community, could also improve our city by choosing projects which will be of benefit to the young people of Salem.

The Salem Board of Education has submitted four prospective projects for approval. They include: The grading of a playground west of Reilly field; the cleaning and repainting of the school rooms; and the grading of the Prospect school playground.

The Board has been very wise in its selection and we sincerely hope that the C. W. A. will deem it favorable to accept these four suggestions for immediate undertaking. —Q—

DO YOUR PART FOR RECOVERY OF NATION

At the close of the 1934 school year, approximately one hundred fifty students will graduate from Salem High school. What will become of them? Yes, some of them will go to college, some will marry, but the remaining half will join the long line of the unemployed.

You who graduate, do not be discouraged for the year of 1934 has been predicted to be a marked improvement over last year.

The recovery administration has made a courageous beginning. If everyone lives up to the NRA code and does his part, without a doubt there will be hope for the jobless. —Q—

BENEFIT BY GERMANY'S METHOD

Discipline is an item which we, as students, invariably resent, even if it is inflicted upon us in small quantities when we really deserve severe punishment.

We might appreciate the relative lenience of our instructors if we could visit Germany at the present time.

German students are "trained to take it" in regard to strict discipline. They must obey in no half-hearted manner. Their innumerable rules are not authorized by the teachers themselves, but by the strict Nazi government, whose supreme dictator is Hitler.

Boys must conduct themselves as soldiers at all times, and girls must master all the principles of the adult nurses' duties.

Recreation is of minor importance to their instructors, who except the students to be mere puppets bowing to the desires of the supreme dictator.

We might well benefit by a study of the German situation in regard to student discipline, and probably thank our teachers for their genuine lenience.

What Do You Think?

Of having two weeks' vacation after Christmas instead of a week before and after:

I think it is better to have a vacation after Christmas than before because we can go visiting after Christmas and we need time to recuperate after New Year's.

DOROTHY McCONNOR.

I like the idea of having a two weeks' vacation after Christmas because you have more time to appreciate your gifts and have fun.

GLADYS SWINBANK.

To have a two weeks' vacation after Christmas gives you time to settle down after the excitement of the holidays.

ROBERT WENTZ.

The two weeks' vacation after Christmas gives a person a chance to catch up in any back work and also sleep.

LOUIS WEIRICK.

I think that it would be best to have a two weeks' vacation after Christmas so that everybody would get a rest, including the Business Staff.

GAIL HERRON.

I'd rather have two weeks after Christmas because I have more time to play with my toys.

RALPH SNYDER, JR.

I never thought about it. A week before and a week after Christmas

so I can work and get enough money for presents.

RALPH CARNS.

Two weeks after because you can't go away and get back otherwise.

ART FRONIUS.

THE FRESHMEN'S CHRISTMAS

'Twas the night before Christmas and all through the houses, Freshmen were running to and fro, hanging up stockings, decorating Christmas trees, and making everything beautiful with velvet poinsettas and shiny holly wreaths. The august Seniors smiled tolerantly, the solemn Juniors frowned doubtfully, and the superior Sophomores laughed scornfully, but the young and frivolous Freshmen merely giggled and went on writing letters to St. Nic.

The morning dawned cold and snowy, and the world awoke to another Christmas Day. The Freshmen rushed downstairs to find bulging stockings, glistening Christmas trees and, and beautiful Christmas decorations. But alas, the august Seniors, the solemn Juniors, and the superior Sophomores awoke to a few or many gifts on a plain bare table.

"Oh," sighed they, "if we were only Freshmen."

TALL TOWER TO BE IN NEXT WORLD FAIR

At the next World Exhibition, to be held in 1937 in Paris, there will be a tower 2,300 feet high. The tower will be higher than the combined heights of the Eiffel Tower in Paris and the Empire State building in New York City. The building has been so planned that for the first 1,600 feet, visitors will drive their own cars up an outside ramp; then from there they will be taken to the top in elevators. In the top of the tower there will be a weather observatory and a lighthouse. In the tower floor, which is to be 430 feet in diameter, important public gatherings will be held. In the base of the tower there are to be headquarters for world communication services and the press.

POLITE DEPARTURE

When you are visiting did you ever hate to make the first move for departure? William F. H. Godson, Jr., has recently published an article titled "The Seven Points of Departure." Here are some of the points:

- One—Stand up.
- Two—Hold out your hand.
- Three—Say good-bye.
- Four—Go to the door.
- Five—Open the door.
- Six—Walk out.
- Seven—Walk away.

Mr. Godson states that the most important part of his whole system is to walk away.

Approaching this method of departure, the author believes you will find a complete solution for such a hard problem.

OCCUPANT HEARS STUDY HALL DIRT

Snuggling fondly in the warm embrace of my owner's hand, I gazed with wide open eyes upon the pupils filing in one by one, talking and laughing; making in general a lot of unnecessary noise.

One boy suddenly yells out, "Say, I heard that we are going to have a test over the last four chapters today. Is it true?"

Instantly pandemonium reigns. "My gosh! and I haven't even looked at it. Where's my book?"

"Aw he's only kidding. We aren't having a test today."

"Boy! I see where I'm getting an F on this one."

"Why didn't she say something about it?"

"Hey, give me a book, somebody."

"Sh, here she comes. Don't let her hear us talking about it. Maybe she has forgotten it."

One after another these exclamations are heard until the teacher enters.

Not a sound is heard. Their faces are very serious. At this unexpected greeting the teacher glances around with a puzzled expression upon her face.

I felt myself being gripped tighter and tighter around my middle. I hope she speaks pretty soon or I shall find myself in two pieces.

Suddenly she smiles, it's like the sunshine after the shower. I smile rather painfully back, but, of

course, she can't see me. What's this she's saying?

"I was planning on giving you a little test over the last four chapters, but since it was rather difficult to understand, we will review today and have the test tomorrow."

How the tension relaxes in that classroom is surprising and once more I am able to breathe freely.

Everyone begins asking questions at once.

My owner places me carefully in my groove in the desk where I can calmly watch proceedings.

In the back of the room I see a boy certainly exercising his jaws. He must be chewing that stuff called chewing gum. I wouldn't mind chewing some myself but of course I can't, for I am only a necessary implement to a pupil, a pencil.

BOYS SING IN GYM DURING NOON PERIOD

How many have heard the boy's glee club that meets in the gym every noon. If you haven't heard them sing, you'd better come in and see 'em some time. Boy, what harmony—they sing all sorts of songs. You are guaranteed variety.

You should see that little pianist of the junior class. His name is Harold. The boys claim that any more wishing to join their group are welcome to do so.

Harold says he will accept any request numbers.

QUAKER TEAM WINS OVER BOTH SEBRING AND WELLSVILLE 5

The Salem High basketball team formally opened their 1933 season with a double victory over the veteran Wellsville High team. The varsity gained an easy victory over the Tiger varsity by a score of 40-26. The reserves, also, won easily, 27-17.

At the first the unexperienced members of the team showed signs of nervousness, and the score was run up to 5-0 against Salem. They snapped out of it though and had the score 6-5 at the quarter. Salem was never headed after that.

Every member of the squad saw service in both games. They showed speed, power and accuracy in shooting. Their defense was excellent. Taken, all in all, this game points at what appears to be a successful season.

Displaying great defensive work, the Quaker quintet outplayed and outscored the Sebring McKinley tossers 21-17, there Saturday night. The Salemites were handicapped by the narrow Sebring floor but carried on and took home the bacon in both games. The reserves won 17-12.

The game was fast and rough although no one was ejected on fouls. Salem lead all the way except at the very first and in the last few minutes of play. The last quarter opened with the score in favor of the Red and Black, but two field goals in succession put Sebring in front 15-17. The minutes fled fast and the points were slow in coming, but two fouls and two field goals finally clinched the victory.

Jack B. "Oh, Miss Smith, I saw a flea of catfish once". "Well, what's funny?" he asked the class, "Flea, you must mean a school of fish", replied some one.

BAND FINDS TOTAL COST OF EQUIPMENT

The total amount of money put into instruments, uniforms, and music of the Salem high band amounts to \$5,630.00.

Many of the instruments are privately owned by pupils but among the instruments owned by the band itself are: Two basses, one bass drum, one trombone, one piccolo, two snare drums, two mellophones, two baritones. These are valued at \$665.

The entire instrumentation of the band consists of: Sixteen trumpets, seventeen clarinets, seven alto saxophones, one C melody saxophone, one flute, one oboe, one piccolo, five trombones, four French horns, two basses, two baritones, one bass drum, five snare drums and one set of chimes making the total of 64 instruments.

The most expensive member of the band is the giant bass horn costing around \$250. The piccolo is next costing in the vicinity of \$100.00.

The instruments which are used the most, one might say, are the trumpets and clarinets, while the other instruments like the bass with its umph-a and the piccolo with its tweet, and the short toots of the French horns come in wherever the music permits. Each instrument has something to do and is supposed to do it.

The band is planning to give two concerts, one of which is sure to be a free one. So come and see this \$5,630.00 collection of instruments, uniforms, and music at the dance next Friday.

AGES OF FRESHMEN

Many students perhaps would wish to know just how old some

of these kiddish freshmen are. Well, we'll tell you. Most of us are fourteen, now, or very shortly will be. Our youngest freshman girl is Margaret Jennings, while the youngest boy is Walter Hahlen. Both are promising members of our class.

IN THE MELTING POT

"Next."
 "Who, me?"
 "Born?"
 "Yes, sir."
 "Where?"
 "Russia."
 "What part?"
 "All of me."
 "Why did you leave Russia?"
 "I couldn't bring it with me."
 "Where were your forefathers born?"
 "I only got one father."
 "Your business?"
 "Rotten."
 "Where is Washington?"
 "He's dead."
 "I mean the capital of the United States."
 "They loaned it all to Europe."
 "Now, do you promise to support the constitution?"
 "Me? How can I, I've got a wife and six children to support."

MARY CHRISTMAS

Short, round, and jolly is this blonde member of the senior class. She's musical, plays in the band and orchestra, and belongs to the Junior Music club.

She has blue eyes and wears glasses.

If you don't know, just peep into 206 and see who sits back in the northeast corner.

Last week Margaret Williams was described.

Willie was having trouble with arithmetic.

Said teacher—How many do mother and daddy and baby make? Willie—Two and one to carry.
