

## Marimba Virtuoso Presents Assembly to Student Body

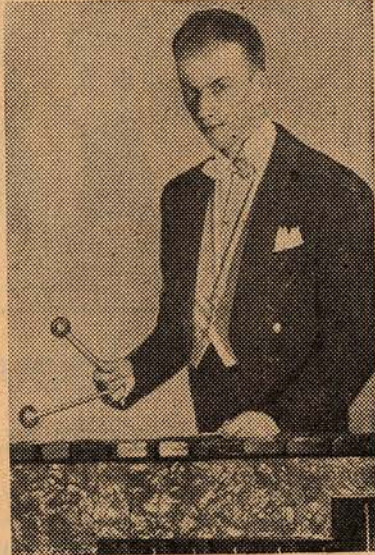

STUDENT OF CLAIRE MUSSER  
ON MUSICAL ASSEMBLY PROGRAM

Burton Lynn Jackson presented a program of Marimba music to the student body of Salem High school, at an assembly yesterday afternoon.

He presented a diversified concert on his magnificent marimba—Bach, Hindemith, Gounod, Ravel, and Beethoven—to Hoagy Carmichael's catchy "Stardust".

The Chicago born musician is a student of the eminent instructor, Claire Omar Musser, whom all authorities agree has no peer in instruction in this field. Mr. Jackson's repertoire included songs of the Art Song composers to waltzes, etudes, preludes, nocturnes, and concertoes, from Chopin, Herbert, Friml and others.

This assembly was the first of the series of association assemblies to be presented this year.

Burton Lynn Jackson

## 1942 Annual Started Is Editor's Report

Work on the Quaker Annual for 1942 has begun, it was announced by Editor Herbert Hansell last week.

Local photographers were interviewed for bids on prices for senior pictures which will be taken in the near future.

Student photographers have been appointed to take snap shots of student life.

## Library Receives Pamphlets On Vocations

The High School Library has received five more career pamphlets which are being used by freshmen to help them select a vocation.

The new pamphlets are:

Careers in Electrical Wiring and Electrical Contracting.

Careers in Plumbing and Plumbing Contracting.

Career as a Bookkeeper.

Physichiatry as a Career.

Men's Furnishing Store Operation as a Career.

Besides these five new ones there are many others which are available for use at any time.

The pamphlets which students ask for most frequently are Aviation, Teaching, Nursing, and Secretarial Work.

## TARANTULA IS NEW BIOLOGY SPECIMEN

A tarantula, brought from California by William Dolinar, senior, was presented to Mrs. Cox as a biology specimen last Thursday. These banana spiders are poisonous but not deadly.

Bill Vignovich and Chris Paporidis, freshmen, also found a rare Dobson fly, which they brought to the class.

## Political Addresses, True Experiences Are Class Topics

MR. GUILER'S PUBLIC SPEAKING CLASSES REVIEW SUBJECTS

Mr. Guiler's fourth period public speaking class is making speeches this week on politics and personal experiences. The political speeches don't necessarily have to be on politics but anything concerning the government. The personal experiences are speeches concerning trips or personal happenings of the past or present year. These speeches are to be three hundred words long, lasting not less than three minutes and not more than five.

A list of eighteen speeches to be given during the semester were announced by Mr. Guiler at the beginning of the course. The type of speeches to be given are namely, current events, political, biographical, international affairs, interviews, acceptance speeches, presentations, debate, humorous, oration, book reviews, travel speeches, personal experience, after dinner, radio, eulogy, commencement and interpretive reading speeches.

An outline has been presented to the class which they are supposed to use in copying notes taken from individual speeches. This includes the name of the individual, title of speech, helpful comments and personal opinion. These notebooks are handed in at the end of the six weeks period.

Mr. Guiler reports that the class is doing very well and many interesting speeches have been given.

## Foods Expert Visits Classes

Mrs. Vicks, noted home economist spoke to Miss Leah Morgan's cooking classes September 18. She demonstrated the various methods of canning fruit and vegetables in the oven, which is the new improved method.

Mrs. Vicks explained that more food should be canned for this winter than ever before because of the National Defense program. She also told of her trip through the West this summer where she visited some of the big canning factories and some army camps where food is preserved in great quantities.

Mrs. Vicks is from West Virginia and is a representative of the Natural Gas Company of Virginia.

## Kickball Teams To Start G. A. A. Season

Plans are being made by Miss Sara Hanna for the first meeting of the G. A. A. to be held October 3.

Miss Hanna announces that last year's members are still with the association but that she expects at least 25 or 30 new members.

When the group organizes, four or more teams will be formed to play kickball, the first activity of the year.

## Arthur Moore Named To Fill Staff Vacancy Left By Lewis Smith

FORMER TENNIS COACH, INTRAMURAL DIRECTOR AT MIAMI UNIVERSITY TO JOIN FACULTY OF SALEM HIGH

Mr. Albert Moore, a graduate of Miami university at Oxford, Ohio, has been named by the board of education to fill the vacancy left by Lewis Smith for whom Mrs. George Koontz has been substituting.

## Fair Play Stressed By Grid Coaches

"I'd rather lose a close, tight game than win by dirty play," stressed Ray Overturf in his brief talk before the students of Salem high last Friday at the first pep assembly of the year. Coach Overturf pointed out fair play as being of primary importance in a football game.

Overturf continued by saying, "If a boy can go out and take it as hard as he gives it then he really is a man." Cooperation was another of the requisites of good football mentioned in the assembly.

Assistant Coach Gordon said that the boys on the team are working hard to make an organized and capable team.

Gordon also deemed fair play, sportsmanship, and team support as all-important factors in a football squad's success.

## Here Comes That Fever Bug Again

Sniff, sniff, ha-ha-hachoo! Are you also afflicted with that dreaded misery, hay fever?

Well, you see, I have been afflicted with it since the tender age of three. I squeezed fedrins into my nose, wore filters, took Ton Jon, the universal panacea, but to no avail. Finally, in desperation, I approached the eminent teacher of chemistry, Professor Herbert Jones, and asked if he could relieve my painful sufferings.

After many patient hours of labor he emerged from his laboratory a tired but happy man, for he had constructed the first Jones' anti-allergy filter with automatic moistening device. I found that he had used two small pieces of sponge taken from the one used by his wife to wash the car, and the rubber squirter from his fake button-hole flower.

If you care to make one, attach the hose to the sponges and you have an anti-allergy sifter. The length of hose used to moisten the filters may be concealed in the mouth. In case you suffer from lack of air, take any convenient ice pick and enlarge the openings.

Use this treatment and you can be assured of permanent relief from hay fever by death.

The activities that are participated in during the year are kickball, volley ball, basketball, baseball, hiking and several others.

Moore, the tennis instructor and assistant intramural director at Miami university for the past six years, has been teaching at Junior high during the first two weeks of this term.

Having started to teach last Wednesday he is conducting American history and government classes.

When questioned concerning his hobby, Moore stated that he was interested in everything and in nothing in particular.

On Monday and Tuesday he had no classes but just got acquainted with Salem High in general. "I am very much pleased with the students and building. I like it very much," he explained on Tuesday morning after a day of observing the school.

## Magic Show In Assembly

Marquis the Magician brought his show of magic tricks and presented to the students of Salem High school last Tuesday morning a strange, mystifying show.

The Marquis, presented through the courtesy of the Junior Chamber of Commerce of Salem, gave a preview of the performance to take place the same night at the Memorial building.

Using as his aids, students selected at random throughout the audience, the Marquis held the attention of the students from the beginning of the program to the end.

The act which seemed most to appeal to the audience was the "reading by touch" act. In this, the Marquis was led blindfolded through the aisles and identified various articles handed to him from the students.

Mr. Herbert Brown introduced Marquis the Magician to the student body.

## FRESHMEN SELL 1,000 PENCILS IN 2 WEEKS

One thousand pencils have been sold by the freshman class at four cents each, it was announced last Friday by freshman adviser, Miss Sara Hanna.

The pencils were put on sale Friday, September, 12, and by the following Monday more than three-fourths were sold.

Miss Hanna reports that 500 more will be ordered with the same colors and the football schedule printed on them.

Ah, Sing To Me Of Assemblies

Here we are back in good old S. H. S. loaded down with pencils, books, tablets, and history questions again and it seems good to be here again, doesn't it?

The activities rate high with us, and especially the assemblies. Now last year it took quite a while for the student body to settle down and realize that no one else can hear when someone beside him is experimenting with the seat just to see if it squeaks like everyone elses' or if Betty Jones is telling Hortense what time she got in last night and did she take the algebra test yet because if she did Betty would like to know what the answers are.

All of this goes on while the speaker is trying to gain the attention of the audience with little or no success. Without an audience's full attention most speakers cannot do their best therefore everyone who managed to hear him says it was a terrible assembly.

Let's cooperate in a drive for "assembly silence" and see if we can't get the full benefit of the assembly.

Don't Push, Just Shove Lightly, Boys

Sportsmanship, above all, was the point that Coach Overturf stressed in his speech at the assembly last Friday. Honesty and square playing comes before the winning of the game. Coach Overturf said that if you play a game fair and square and lose, you have played a better game than if you played against the rules and won.

The student body is proud of its team and coaches and the fair play that they stand for. The student body wishes to cooperate with the team by its cheering and it wants the team to know that it is behind them all the way.

Dedicated To All Upperclassmen

Dear Upperclassmen, We are each and everyone of us, as you predicted, saying "yes" and "no" about school. We are all trying to become prominent members of our class and we are trying to support the freshman class to the utmost and so doing, we hope to be a creditable addition to Salem high school. Talking to a few members of the freshman class here and there and around and about, we find a wide variety of feeling towards this new era of our school life. For instance: Jerry Smith sometimes feels as lost as a needle in a haystack but follows a junior and always gets somewhere. Mollie Schmid just doesn't see why it has to be. (Interview Moe for further explanation. Appointments must be secured) Chris Paparodis feels smarter as time goes on. (Teachers beware of Chris by June)

Jeanne Walsh thinks upperclassmen step on our toes but thinks it will be fun when her turn comes. Bill Vignovich feels slightly wiser even though there is a mystery involving one of his subjects. (Detective wanted) Shirley Mangus just sort of likes school BUT THINKS SOPHOMORES ARE SWELL. (no detective needed here) Helen Louise Rinehart feels pushed around, but she likes it. Vivian Stowe says she doesn't like school at all but maybe she's just kidding. Marjorie Reeves becomes scared at band tryouts. (Toot your horn louder to become braver, Marjorie) Douglas Huttenhower likes reading better than writing because it takes less of his time. So you see dear upperclassmen, using you as examples, we are striving to follow in your paths, acting as you act, doing as you do, and thus becoming the pride and joy of the teachers and upperclassmen. Freshly yours, Class of '45

Flight Surgeon Is Thrilling Tale of Navy

A young doctor attached to the U. S. navy flying corps, namely Dave Stickney and his best friend, Bob Worth, a lieutenant who is commander of a flying squadron, are stationed at Pensacola's naval station at the beginning of "Flight Surgeon", a thrilling story of the unheralded men of our navy, written by Rogers and Halland.

Dave Stickney's work begins as a naval surgeon on a week after his arrival at Pensacola when one of his newly found friends is killed while flying a low-wing fighter. The fact that Tim McKay is the third man to be killed arouses Dave's curiosity and in his search for the cause of these deaths, he makes known the reason for the crashes. Dave decides to apply for aviation training after realizing that he is resented as a surgeon by the naval pilots.

After acquiring his wings, he is assigned as flight surgeon during war maneuvers in the Pacific. How Dave becomes a hero to the navy by saving the life of his best friend, after he has presented his resignation to the service, makes thrilling and spellbinding reading for both boys and girls of high school age.

At Football Game I Noticed . . . . .

Well, here everyone sits, waiting or the long-looked-forward-to event to begin. Everyone seems to be happy, I guess. At least, "Slats" seems perfectly contented up there with his lady love. The freshmen get around this year, too. At least, Ernie Ware seems to be doing all right.

"Bird" and "Wiggle" are impatiently sitting down there on the bench, practically bubbling over with excitement. They really expected to win that game for Salem all the time, you know. Coach Overturf looks a little excited himself over his eleven little "Supermen."

Now the game is in full swing, and I can hear Jinny Snyder up there pounding her drum so hard that I wonder how the poor thing survives. There are those three little co-eds, Carol, Ruth and Irene, fairly bursting their lungs cheering, while Janet Taylor does a good job of wrecking the hat of the man in front of her while "Bird" tries his darndest for a touchdown.

Now, at the half, are you watching that Homer Asmus strut? Well, at least we can say there is never a dull moment!

Ode to a Girl

I think that I shall never see A girl refuse a meal that's free; A girl with hungry eyes not fixed Upon the drink that's being mixed; A girl who doesn't like to wear A lot of junk to match her hair; Girls are loved by guys like me— For who on earth will kiss a tree? Employer (to clerk)—If that bore, Smithers, comes in, tell him I'm out—and don't be working or he'll know you're lying. Prof.—A fool can ask more questions than a wise man can answer. Stude.—No wonder so many of us flunk in our exams!

The Hoover Sweeper I GET ALL THE DIRT By Lois Hoover

Rah, Rah, Rah. . . Sis boom bah Salem won games Rah, Rah, Rah. . .

If you aren't proud of the old team for winning the double header you should be. They really have the old fight. Filth Or Dirt???

George Ursu, sophomore, thinks that I do not have enough names in this column. If I knew what was going on among the freshmen and sophomores I could write about them but I can't find out anything about them. Please if you want your name or anybody else's mentioned in this column let me in on the know or leave an anonymous note in the Q. O. Anything is greatly appreciated. Now that the business has been taken care of we will proceed with the News of the Day.

STATION WAGON. . . . Friday night after the football game Bruce Hack had the delivery truck. A garden chair was in the front seat and it was occupied by Jean Warner. It was one of these steel ones that rocked back and forth. And then in the back of the truck there was a glider put long ways. This was occupied by Bob Ruffing, Hazel Capel, Wayne Steffel, and Doris Holroyd. They seemed to be having quite a time, especially when Warner had to get out and wipe the tomatoes off the windshield. Somebody must have got a little rowdy.

HAIR-BREADTH TERRY. . . . Another mob that was loose after the game was Terry Atkinson with Pat Keener, Dan Reardon, Molly Schmid, Jinny Snyder and Bill Hannay. They were having quite a time trying to keep their band hats on when they were flying low over Salem. Hope everyone got the right ones back.

Guess Who???. Our band man Bruce (I make the drums (talk) Krepps had a date Friday night, but the underground could not find out who the girl was. Come on, Bruce, tell us all about it.

Get Your Dates Early. It may be a little early to tell you to get your Prom dates but how about getting the ones for the Junior-Senior Party that is sometime in November. We really want to have a jam session at the dance.

PEANUTS, POPCORN!! Sid Simon gets the acting award of the week. At the football game it was Sid who was doing all the selling for 210. The little junior high boys were giving him a little trouble but he came out about two cents to the good. Of course there were a few others that helped out at the stand. Miriam Seeman, Irene Schmidt, Rita Pottorf and other loyal members of 210 were doing their bit. The one that came out best was Mary Schimp. Every little boy that came to the stand gave Mary a sucker or a candy bar. OH! popularity!! Why does Hitler wear eight pairs of socks?----So he can't smell de---feats (feets). Don't forget about your contributions. See you in the Q. O.

# Ravenna Ravens Meet Quakers In Game At Reilly Field Tonight

**RAVENNA OUT TO AVENGE QUAKER DEFEAT OF LAST SEASON; RAVENS LOSE TWO THROUGH GRADUATION**

Salem High's Quaker football squad will play the Ravenna Ravens tonight at Reilly stadium under the lights. Both teams posted victories in their initial appearances. The Ravens shut out Akron Buchtel 13-0, while Salem walloped Salineville 13-0 and Madison 25-7 in their "twin bill."

Ravenna will be led by Stan Greenwald, right halfback, who is their main offensive punch.

The Quakers will probably throw the ball around plenty both on forward and lateral passes. Last week these efforts proved very successful, but the Ravens will boast a much better pass defense than that of either of last week's rivals.

Salem's punting will be a question mark in the game tonight, for

the Quakers attempted only one punt last week. It is probable, however, that it will be sufficient since both Ruffing and Greene are better than average booters.

Last year Salem beat Ravenna 7-3 in a close, hard fought game. They will be seeking revenge for this and several other recent defeats when they take the field tonight. They will be without the services of Leon Havre for the first time in three years since he was lost to graduation. But the Ravens have an even chance with Salem tonight.

Faith is believing the dentist when he says he isn't going to hurt.

# S. H. S. Gridders Win In Double Header By Large Margin

**Initial Game of Season Won by Quakers, 25-7**

By Steve Hart

Salem High's football machine moved over both of its foes, Salineville and Madison, 13-0 and 25-7 in comparatively easy fashion last Friday night at Reilly stadium under the lights in the season's opener. The Quakers took Salineville over in the first half and Madison in the second, thus marking up two victories on their record.

At the start of the first game, Salem's Ruffing kicked-off to Salineville who failed to gain and punted. After exchanging the possession of the ball, the Quakers started a drive which was featured by a pass from Volio to King, good for 22 yds. Dick Greene, sophomore back, took the ball over from approximately the one foot line. Ruffing's attempted kick for the extra point was no good and the score remained 6-0, in favor of the locals.

"Pinky" King opened the 2nd period by blocking a kick and Bob Ruffing caught the ball and scampered to the 21 yd. stripe. A holding penalty slowed down the Quaker move, but they returned the ball to the 15 yd. line. On the next play Nocera took the ball around end on a reverse from Volio and scored. Ruffing converted the extra marker.

The ball changed hands during the rest of the period, but both teams failed to score.

Salem began their campaign against a fresh opponent, Madison, with an early spurt, aided by a penalty on the visitors and led by

Last Friday morning the entire student body of S. H. S. heard Coach Ray Overturf say that fans would see an entirely different ball club than the one that Leetonia beat in a practice game. And then that night approximately 4,000 odd rooters went to Reilly stadium and saw (just as Overturf prophesied) a complete revamping and improvement in the Quaker squad.

Incidentally my 19-0 and 13-7 prediction sure "missed the boat" since the game scores were 13-0 and 25-7. Oh, well, I guess I had Salineville and Madison's scoring all mapped out.

Dick "Knob" Greene got the first tackle and the first touchdown for the Quakers last Friday night. All in all he played a "bang-up" game of football when he was in there.

Speaking of "Bang-up," my opinion is that if the opener was any sign, Salem is going to have one of "those" seasons. The whole squad looked good, some lacking experience, others seasoned veterans, all of them scrappy.

A big white jersey with 25 on it and Glenn Weigand in it hit Rose, Madison quarterback, so hard it lifted him up and threw him back. Both "Wiggy" and the ball carrier were going top speed and "Wig" carried a "little" weight advantage. Undoubtedly, it was the best tackle of the night.

However, Scullion thrilled everyone when he galloped 80 yards for a score in the Madison affair. Plenty of credit due here to good blocking by several teammates.

Lisbon, Wellsville, East Liverpool and tonight's opponent, Ravenna, won their openers over the week-

end last week.

Ravenna triumphed over Akron Buchtel, 13-0. Stan Greenwald tallied both touchdowns and passed Pfeil for the extra point. After scanning their line-up, I find that again this year as in several times in the past, there is a Heisler on the eleven.

**As for the score, it will be 20-13 in favor of our own Quakers, I hope.**

Massillon won its 34th consecutive game and its first under the new coach, but not in the usual style. Weirton (W. Va.) held them to a 6-0 score. Better watch out for the Massillon-Canton Timken.

Well, until next week, beat Ravenna and "rack-up" number 3 win.

## Statistics On Double Header

Starting Lineups:

| SALEM     | SALINEVILLE    |

## How 'Bout the Non-Cheerers?

### INQUIRING REPORTER

What would you do with people who do not cheer in pep assembly? Dorothy Brobender's prescription is to eat more Wheaties.

Percy VanSickle says boldly: "String 'em up to the nearest oak tree."

Ruth Fidoe valiantly answered the query by saying that she would stick a pin under them so that they would be obliged to make more noise.

Wild Bill Shoop ruthlessly declared that he would feed them on bread and water until they were ready to cheer.

Maxine Everstine thinks they lack pep-appeal and should get it from Carter's little liver pills.

Jack Weigand professes that he would stick them all in concentration camps until their manners become better.

Carol Jaeger puts her answer very bluntly: "I'd throw 'em out."

Irene Schmidt—Make 'em lead the cheering.

Homer Asmus—They should have enough school spirit to want to cheer.

Frank Snyder would simply make them stay in the auditorium until their vocal chords are strong enough to do their share of shouting.

Barbara Flick—"I hate noise."

## Manual Training Classes Changed

### SCHROEDER TAKES MOORE POSITION; JONES IS SPEAKER

Manual training periods have been adjusted this year so that all Junior High school boys wishing to take this course may do so.

Formerly, just those students having a third period study hall could take manual training. According to the new plan, students who do not have a third period study hall may take the course during their activity period. The latter have 35-minute classes on Tuesdays and Thursdays, whereas students taking manual training during a study period meet one day a week only. One group meets on Wednesdays, Thursdays and Fridays.

Following a motion picture sound film last Friday morning, Mr. Theodore Jones, acting dean of boys at Salem High school, spoke on the subject of cooperation as the basis of school success.

Mr. Jones stressed the importance of cooperation among the students of the Junior High as an aid to the success of the football team.

After the speech, Dale Paxson, High school cheerleader, led the student body in cheering.

The Association count until last Friday showed the increased efforts of this year's students to make a good showing in the drive.

This year, 316 students out of an enrollment of 436 joined, as compared to last year's 287 members from 433 pupils. This year's membership shows an increase of 6.2 per cent.

Mr. C. F. Schroeder, former Salem High school football coach, began his duties as hygiene teacher and physical education instructor at the Junior High school a week ago last Monday. He replaces Mr. A. A. Moore, who was shifted to the High school.

Miss Eleanor Labriola, High school senior, has been chosen to fill the position of secretary to Mr. L. D. Early, Junior High school principal. Miss Labriola began her duties a week ago last Monday.

## S. H. S. Gridders Win

(Continued on Page 3)

"Scub" Scullion, who toted the ball on the majority of plays. He also opened up the scoring in this second game by going off right tackle for yards and a touchdown. The try for the point after touchdown by Bob Ruffing was wide.

Madison took the kick-off and couldn't gain and so they punted to Salem, who marched from the 24 yd. marker to pay dirt in a succession of plays. Bob Scullion scored for the Quakers and Ruffing's kick again was wide.

Soon after the start of the last half Nocera received a lateral from Volio and scored from the 30 yd. line. He also tallied the point on a lateral from Scullion.

The next score came when Wickert of Madison intercepted a pass and ran 40 yds. for a touchdown. He also kicked the point.

The final Quaker score then came when Scullion took the kick-off 80 yds. and a six pointer. This was capped off by a nice bit of blocking by Perry Whitacre.

Although Salireville seemed to lack an offense of any strength in the first game, they showed quite a bit of scrap. Coach Overturf ran substitutes in often this game as well as the second. McLouhlin and Roberts led the visitors in that they got most of the tackles and gains their team got.

The second "tussle" was more exciting and the Quakers offense started going in full blast. The evening was highly profitable for the locals who showed 100 per cent improvement from the preceding week's practice game.

## New Teachers Have Hobbies

Jean Kingsley, a graduate of Salem high '37 and Wooster College this June, is teaching plane geometry, general mathematics, and general science. At college Miss Kingsley was secretary of Kappa Mu Epsilon honor mathematics society and played in the band. Golf is her favorite recreation.

Another new teacher is Ramon Cobbs, hired to teach physics and applied science. He is a graduate of Mount Union College and Kent State university. Mr. Cobbs spends a great deal of his spare time working in his flower garden. For the last six years he has taught at Goshen high in Damascus.

'Tis well to seek to be unique, But being too, off makes a freak.
