Behavior Is Topic Of Recent Biology **Class Discussions**

A study of behaviour is being made in all the biology classes. Each day the class picks a student to be chairman of the class recitation for that day.

Kenny Zeigler brought in two guinea pigs for experiments. The classes use one as a control and the other is used chiefly for vitamin deficiency. The guinea pig will be brought back to health after the experiment. Records are being kept of the biological changes.

Our Country's Father

As tomorrow is George Washington's birthday, we as Salem High School students would do well to take time out and look into the past and recall just what a great man the "Father of our country" was.

Aside from being the first President of the United States, Washington had all the qualities needed to make a successful commander and he showed a remarkable mastery of military tactics. He was a man of unique self control and dignified appearance, being six feet two
