THE GRADUATES: Where Do They Go from Here?

By CINDY FISHER

As the normal class prepares to leave the hallowed halls of Salem Senior High, no one knows for sure whether it will be the "hard cruel world" or the "wonderful world" outside. The seniors themselves feel generally optimistic about their coming departure, according to views expressed in the May issue of the "Gazette." The school is looking forward to the new year, and the graduates are looking forward to what life will bring.

Here are some of the thoughts seniors have expressed on their plans for the future:

- "I think I'll go to college," says Jennifer Brown, "because education will always be rewarding and useful." Other seniors echo this sentiment, saying "optimism—it's the way to go!"

Yet not all students see the future as bright. Indefinite plans to attend college or their "job" possibilities, and the draft worry many seniors. "I look at the future with great uncertainty," confesses one student. Another said, "I don't know whether I can live up to the qualifications and the all-time and patience that go into being a college student." But John Smith, a 19-year-old boy has solved the draft problem by entering the armed forces, and he foresees a brighter future: "The draft will be over in a few months, and I'll be back in college." Then I'll look optimistic."

- The seniors go forth. The Gazette wishes them much happiness and success in the world of the '70s and beyond.
