SALEM SENIOR HIGH SCHOOL — SALEM, OHIO

Reorganization of YWCA

by Ruth Adams

The Salem YWCA has recently started a Youth/Teen Program. Cindy Maher is the first full-time Youth/Teen Director. She was formerly a substitute teacher, so she may look familiar to some. The program is to help teens develop responsibility, leadership, personal skills, and provide service to the Salem Community.

Cindy has been the director for 2½ weeks. She stated, "I am so excited to be doing this, I love Salem! I've lived here all my life." The program will exist for youths ages 5-12 and teens ages 13-18. Some of the programs for teens that they are considering are hay-rides, Halloween parties, Looking Good Program in which a model will come in and show how to coordinate clothes and proper skin care, exercise, and aerobics.

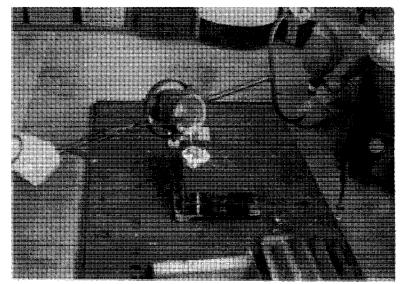

In the program for youths Cindy hopes to get people from the high school to help show them cheerleading, pee-wee basektball, and an exercise program to help them begin to learn about fitness.

Cindy wants to get the Y-Teen Club restarted. "This program is totally different from the teen program," Cindy said. "In this we hope to have slumber parties at the YWCA and other overnight trips.

Tuesday night there was a brainstorming session for anyone interested in teens and wishes to attend and give ideas for other activities.

Cindy stated, "I hope to offer classes to high school girls so they can develop other interests outside of the school curriculum.

Cindy, graduated in 1977 from SHS, and in 1981 she graduated from Kent State with a degree in Elementary Education. Bruce Maher, Cindy's husband, was a SHS graduate also and is presently in training to be an administrator of a nursing home.

Keeping warm in metal class.

Molding A Little Education

by Gary Poage

How to keep warm on a winter day — try foundry. Just recently I have had the experience of pouring molten aluminum into a mold to form hacksaw handles. This all happened at the Salem Senior High School in Mr. Zinz's Metals II class. The process involved consists of heating aluminum to 1250 degrees

fahrenheit. While the furnace was heating, I put on an asbestos apron, leggings, and arm protectors. Also for safety reasons, leather boots, gloves, safety glasses and face shields are worn. When the molten metal reaches the desired temperature, the metal is poured into a mold made of sand. The mold is made by placing a matchplate between the cope and the drag then ramming sand against both sides of the matchplate. After the sand is

packed tightly, the matchplate is removed so as to leave an open cavity into which metal is to flow.

FRIDAY, JANUARY 27, 1984

During the initial pouring, I had to be careful as to not let the molten metal splash onto the floor because if it did, there would be an explosion. The outcome was a perfect handle. Later during the year, the class will be making belt buckles. I encourage all students, both boys and girls from all four grade levels, to sign up for a metal class.

Scholarships

Ginda Woods

Congratulations are in order for six Salem High School seniors who were recently selected to receive six of the twelve local Elks Scholarhips. Awarded \$200 each were Lori Schnader, Mary Mozina, Joy Richesson, Fritz Schlueter, David Ward and Ginda Woods. Two qualified for state competition; they are Ginda Woods and David Ward. David was also selected to compete nationally along with Joy Richesson and Fritz Schlueter.

All seniors are reminded to check with their counselors concerning other scholarships for which they may be eligible.

Hobbit's "Peace Of Mind"

by Debbie Nichols

On Saturday, January 28, the Salem High School drama department will open to the public its presentation of the musical *The Hobbit* under the direction of Mr. J. E. Ballantyne, Jr. The play will be held in the Salem Senior High School auditorium. The doors will open at 7:30 and the show will begin at 8 P.M.

The musical play *The Hobbit* is based on the novel by Professor J.R.R. Tolkien. The play opens with the great wizard Gandolf calling to his dwarves. The dwarves pour on stage singing their marching song as they approach the home of the story's Hobbit hero, Bilbo Baggins. The dwarves ask Bilbo to accompany them on an adventure,

but because Hobbits are nonadventurous by nature, he turns down the invitation. However, after some pressure from the dwarves he gives in and agrees to go.

On the adventure, the party encounters dangerous trolls, then escapes into Goblin country where Bilbo finds a magical ring of invisibility. They run into spiders, dungeons, and the dragon Smaug. The Hobbit has a very happy ending, though. Thanks to Bilbo, the dwarves recover their lost kingdom and the Hobbit hero recovers his "piece of mind."

Some Club Events

by Betsy Babb

By the time January has rolled around the clubs have already completed many activities. But the rest of the year still looks promising.

The AFS club has been very active this year. It started the year by holding an open house picnic at the Salem Country Club last summer. The picnic was held in order to welcome Carla Mencia, the exchange student from Honduras.

This Christmas the club held a Christmas party at Nan Webb's house. All the AFS students in the area were invited.

Mr. and Mrs. Tom Smith had a going away party for Alice Sarginger. Alice is in New Zealand presently. Both AFS students and parents attended the party.

The club sold Christmas ornaments and ran a concession stand to raise funds.

They plan to have an AFS day sometime in the future. This will give the AFS students in this area a chance to visit Salem High School.

The Spanish club celebrated the Christmas Season by holding a party. "There were delicious foods, games, prizes, music, and the traditional breaking of pinatas," said club advisor Mr. Monteleone.

The Spanish Club plans to hold a concession stand in April to raise funds.

In the future the club plans to have speakers at its monthly meetings. They are also planning to visit a Mexican restaurant sometime in May.

by Kevin Beck
"I think it's important, and
everyone should know something
about it." Mr. Allen said referring to
cardiopulmonary resuscitation

Life Saving

Students

CPR is keeping a person artifically alive after a heart attack or failure of respiratory system. Considering 700,000 people have heart attacks a year, and one half of them do not make it to the hospital, most experts feel CPR is very important.

"Two or three years ago the state wanted it part of the curriculum. I've been teaching it for seven or eight years, though," Mr. Allen said.

There are several different levels. Heart saver is one person and obstructed air way. Basic life support is the next level. It is one and two person, obstructed airway, and infant. This is the one sophomores learn in health. Instructor gives one the authority to test others. Certified instructor is being able to teach other instructors.

One thing to notice is that the basic life certification runs out one year after the date that it was issued. One student who has had CPR training had this to say, "I'm glad I have the ability to save a life. It's good to know I'll be able to handle an emergency."

CPR has saved many lives. It is more than something in health class. It is a way to handle yourself in an emergency and possibly save a life.

Mystery Person by Amy Stroka

Our second mystery person this year is a junior girl. This junior girl has blond hair and blue eyes. She stands at 5'4½" tall and weighs 120 lbs. and has a size eight shoe. Her favorite color is purple and her favorite group is Alabama. She also enjoys eating her favorite food, steak. She has participated in Color Guard for two years and she is active in Spanish club.

Do you know who this mystery person is?

Rock's Best of '83

by Brian Metz

1983 was a vintage year for rock'n roll, with groups such as Def Leppard, Quiet Riot, ZZ Top, The Police, and The Rolling Stones dominating the top ten chart and the radio airwaves. Not only was the year big for selling albums, it was big for concerts. The Cleveland area played host to many of the best acts, including Iron Maiden, Def Leppard, Robert Plant, Loverboy, Quiet Riot, Journey, Donnie Iris,

However, one complaint seems to be being heard all over the country: the high price of tickets. With the price of one ticket usually about thirteen dollars, some concerts are unaffordable. Therefore, many acts are cutting down on equipment such as lights, or playing in smaller halls in order to keep down the costs. However, don't look for many reductions in price for 1984, because some acts simply won't compromise.

ZZ Top, and Sammy Hager.

As far as major tours go, this first art of 1984 is loaded with 'em. Ozzv Osbourne, The Rolling Stones, Judas Priest, and Van Halen all have released albums that seem to be destined to become major sellers. Ozzy and Van Halen are already on tour, and seem to be sweeping the country with their music. Ozzy will appear at the Cleveland Coliseum February seventh on his Bark at the Moon tour, and Van Halen will make their triumphant return to Cleveland on March fourteenth. This concert was sold out in fiftythree minutes, a new record for the Coliseum. The Stones are also due for a tour this year — one that will probably be sold out entirely, as was their 1981 tour. Rumor has it that Judas Priest will also be going on tour, so keep your eyes and ears

Who was your favorite group of 1983? Your favorite song? Well, you get to speak your mind in the Quaker Music Poll. Simply fill in all the questions, cut the ballot out, and drop it in the box at the library. However, it is understandable if you

don't wish to mutilate this great paper. In that case, you may then fill out your answers on a separate piece of paper. Your answers will be greatly appreciated, and the results will be published in the next issue.

DE UPDATE by Lorraine Elias and Lori Hippley

There are several events going on in the IOE Department for the month of February. First of all, students are going to be involved in a competition. This competition will take place on February 11, at Mahoning County JVS. will be competing against other students in a skill that they have chosen. Winners of this competition will go to State. Good luck to all students!! Also, during the week of February 13, IOE honors IOE week. During this week special events will take place. Tests will be given to typing, general business, and record keeping classes. Prizes will be awarded to each winner. An open house is going to be held for all those interested students who wish to see how IOE is run. A poster contest for IOE classes will take place at the end of this week and a prize will be awarded during the department meeting. The theme this year is "Focus on Growth." We will have former and present successful students come in and speak with the IOE students on their jobs. So, come on and have some fun on this special week!

Computer Dating And King Of **Hearts Dance Slated**

by Deri Kelly

With whom are you compatible? Well, Student Council is giving you a chance to find out. In your first period class you will be given a form to fill out about your personality. If you return this form, it will be fed into a computer that will determine 10 people of the opposite sex that you are compatible with.

Student Council is also in charge of the King of Hearts dance February 3, 1984. Voting for this event will take place in the lunch room 5th and 6th periods, so be sure to vote for your "favorite" senior guy! One vote per person! More information on up-coming events will be given at a later date.

Goodballet adds another two.

Raiders Scalp Redskins

by Kelly Spiker

The day was January 22, 1984. The place Tampa Stadium, Florida, and the event Super Bowl XVIII. The teams for this great game were the L. A. Raiders and the Washington Redskins. The masters of this game were clearly the Raiders as they thrashed Washington - 38 to 9. This was to have been one of the best games ever. It should have been an even fight all the way, but it just didn't turn out that way. The Raiders went onto the field with the attitude that they would walk all over Washington, and that is exactly what they did. The first score of the game came in the first quarter when the Raiders blocked a punt and fell

on it in the end zone. Washington was haunted by misfortune all afternoon as the Raiders sacked Joe Theisman six times. There was a lot of record breaking in this game, such as a 71 yard run by Marcus Allen of Los Angeles that ended with a touchdown. Allen had a total of 20 carries, 191 total yards and 2 touchdowns on the day. Marcus was named MVP of the game. The 38-9 win by Los Angeles was the largest margin of victory in the Super Bowl's 18 years of existence, and also the most points scored by a single team. It was definitely a Raiders' day.

Come Up and See Us Sometime

UBRARYSalem Girls **Improving** by Joe Noll

The Salem girls' basketball team stands at 5-9 so far this season. The team is being led this year by senior Ginda Woods, junior Amy Goodballet, and sophomore Cathy Francisco. Woods gives the team the senior leadership that it needs. The 5'11" Goodballet is definitely one of the best players in the area. Francisco, when she isn't filling the hoop up with long jumpers, can be found dishing out assists.

The girls dropped a heartbreaker to Campbell Memorial 45-44 on the 19th of January. Goodballet led Salem with 15 points and 11 rebounds. Francisco had 15 points, nine rebounds and three steals.

In their most recent game the team came back from a seven point deficit at the start of the fourth quarter to beat Struthers 51-49. It was a total team effort. Junior Michelle Vannoy came up with a key steal late in the game. Sophomore Jeannie Gow put on some heavy defensive pressure. Freshman Dina Hartman and Ginda Woods had some very important rebounds late in the game. With about 20 seconds to go the game was tied at 49. The Quakers called a time out. They got the ball into Francisco's hands, she looks inside, passes the ball into Goodballet who scores as time runs out. The Quakers are victorious 51-

The team would like to thank the fine student body support and hope you will attend their next home game January 30 with J.F.K.

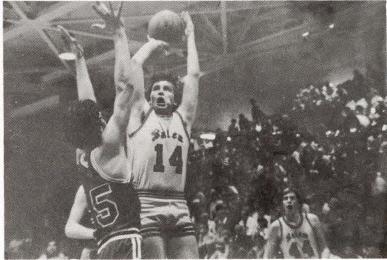

The 1983-84 boys basketball team is over half way through the season with nine wins and four losses. Salem is 3-3 in the MVC and 5-1 in out of conference games.

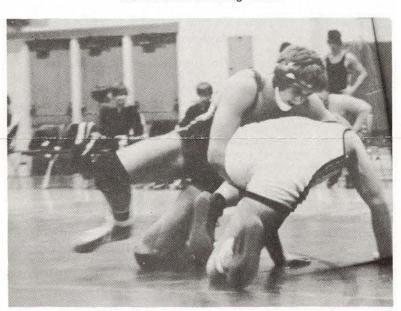

Salem started the season with a 2-2 record, after the first four games. Then, the Quakers had a major game against Campbell. Campbell beat the Quakers 63-61. After the game, Salem went on a four game winning streak. Salem beat Youngstown South, Boardman, Ursuline, and Canfield consecutively. The team now had a record of six wins and three losses. The next setback was the next game against Poland. Poland won the game, at Salem, by the score of 58-49. Salem's next two games were at home against West Branch and East Liverpool. Both games were dominated by Salem and the scores showed it. Salem beat West Branch 99-66 and Liverpool just as badly. When asked how the MVC looked the players responded, "It is going to be hard to catch JFK, who has not lost a game in the conference." "We have half of the season to play and we'll do the best we can."

The reserve team, after a dismal one and six start, has won the last five games in a row; the response was "It feels great, but we're going to win a lot more games this year."

The Quakers next game is tonight, against Girard at home, in a key MVC game.

Noll shows winning form.

Salem's Jamie Solmen works for win.

Frosh Roundballers Gaining Experience

by Julie Parrish

The freshman basketball team is one up on the varisty team. Even though varsity players have more skill and experience it was the freshman team who was escorted by police complete with flashing lights, to its game against Campbell on January 19. The team got lost in Campbell and Mr. Shivers managed to get the team escorted to its playing destination even though all he asked for were directions.

With 6 games left in the season the freshmen have a record of 6 wins and 8 loses. They are assured of playing at least one game in the tournaments which will be played at Louisville. If the team manages to win 5 out of the 6 remaining games they will have the best freshman record for the last ten

Consistent high scorers are Andy Brookes, Dale Jenkins and Bernie Zania. When asked how he felt about the ability of the team, Mr. Shivers replied, "When they play good basketball, they play at a level above freshman. They have improved and are good learners. They absorb the knowledge that they are taught and use it in their games." The Quaker wishes the freshmen good luck in the rest of their season.

The remaining freshman games are: JFK - Jan. 30; Hubbard -Feb. 2; Canfield - Feb. 6; and Poland — Feb. 7.
