**Degrees:** Bachelor of Arts, Master of Science in Education

**Classes taught:** German, Freshman English, Developmental Reading

**Any final thoughts:** I will miss teaching, but I'm ready to begin a new phase of my life and hopefully be a "grandma" sometime soon.

**Special thanks:** My friends who have been there when I needed your support.

**Top 5 favorite memories:**

- 1) Trips to Europe with students
- 2) Retirement party for Miss Rafferty
- 3) Cards at Miss Rafferty's
- 4) Hugs and crying at our life situations
- 5) That awful picture that was put on my map my first year of teaching.

### To Mrs. Reed from the faculty

A team member we'll miss at Salem High. Mrs. Reed—you were the best on our number one teacher swim team! You'll be missed by many, but in our hearts you'll remain a true friend to all the faculty and students who were fortunate to know you. You'll be missed.

Audrey Dohar

Hope you can buy more sports cars and ride around the country! Good Luck!

Devon J.

Frau—

What great memories we have going all the way back to those crazy poker nights at Joyce's place. Those were great times! You've put in your thirty years, and now it's time to say good-bye. But I won't say it instead it's *good luck* and *stay in touch!* You're a great friend and colleague — I wish you well!

Mel ☺

Going to miss you girl—especially all of those heart-to-heart talks with laughter and tears. What am I going to do next year? Auf Wiedersehen, Frau Reed!

## Parting words

By Sean Morrissey  
Editor-in-Chief

I begged Mrs. Dye for some space in this issue, it being my last high school publication and all. I'll try to refrain from being emotional, but thanks and appreciation must go out to numerous people.

First of all, the amazing 2003-2004 staff of *The Quaker*. Every single one of you (as well as myself) were rookies to not only journalism, but everything involved with it. I couldn't have asked for a better family to spend my sixth period with everyday, even if I was made fun of for not remembering what alliteration was. We shared laughs, stress, and great accomplishments this year—I couldn't be more proud of you all.

Also, to all the teachers and staff who provided us with the much-needed information and especially those who put up with us. Thank you for letting us pester and badger you for all the facts. You made numerous things possible through your assistance. Also, my deepest thanks go to Mrs. Dohar for all her help and supportive comments for the paper this year. The advice you've given us will never be forgotten.

And certainly last, but not least, Mrs. Dye. You have gone above and beyond to help each and every one of us on the staff enjoy our time. Regardless of missed deadlines or being overly talkative, you're love and dedication has touched us all, even through the "tough act." We might have quarreled every so often (daily to be exact), but it always ended in a smile. That very smile and quirky humor will be something I'll never forget. Thank you for the knowledge you've supplied me with, and thank you for the memories this past year.

## To the Class of 2004

To the Class of 2004—I wish you all the very best in whatever it is you choose to do with your lives. I have enjoyed working with you as your class advisor; you are a very special group of young people. Hold fast to your dreams—work hard, play hard, and remember what Frost once said: "...when at times the mob is swayed To carry praise or blame too far, We may choose something like a star To stay our minds on and be staid." Good luck and God bless!

Mrs. M. Dye

Class of 2004... It's been my pleasure to teach family living this year because of all of you. Good luck always.

Mrs. D. Johnson

(To the class) Always remember: The measure of your success is not what is in your wallet, but what is in your heart." God Bless!

Mrs. J. McCracken

Class of 2004 May all your dreams come true and keep those computers going! The 2004 class is very special to me. We'll miss you but know greater goals await each of you.

Mrs. A Dohar

A quote from Erasmus, Dutch scholar (1466-1536): "To believe everything or to doubt everything are two equally convenient solutions; both dispel with the necessity of reflection." Mr. H. Brock

When considering fortune and success in life, seek out what is most important to you, including "time" to do what you seek most. (Hint, money or material items may become low on your list.)

In life you will interact with many others, some who directly affect your life through work, income, success, happiness, etc. You have little or no control over many of these people. Some make good decisions that affect you, some make poor ones. However, if you follow two rules in life you will always have options for your future: A) work hard at whatever you do, B) do what is right. By doing these you have a choice to stay or move on as you see necessary. You will always be "marketable"; you will be successful!

Mr. K. Peters
