### Poem

I loved my friend.  
 He went away from me.  
 There's nothing more to say.  
 The poem ends,  
 Soft as it began —  
 I loved my friend.

### How Time Flies

As freshmen we were both naive and were scared, We felt the pressure as the upperclassmen stared. While walking the halls we examined new faces, They returned glances looking at rosy cheeks and braces.

Then onto our sophomore year, a few inches taller, Many of us took jobs to earn our first dollar. Passing the OGT's was one heavy load, And getting our license to hit the open road.

Finally upperclassmen in our third year now, The first two years passed by so quickly somehow. Junior year flew by, with our first prom in sight, Dinner and dancing making memories all night.

This is it, our anticipated final year, Seniors we are now and we rule with no fear. It is time for us to graduate and part, But these memories made are forever in our hearts.

# Retirees of the Class of 2010

## Mrs. Anna Wrask

**College Attended:** Kent State: teaching degree, educational media masters.

**Classes Taught:** Junior High Art, Senior Art.

**Future Plans:** Traveling to visit family and friends, working on family genealogy, visiting historic sites, gardening, carving wooden ducks and birds, which now may be entered in competition.

**Memories:**

My number one memory is a college that includes seeing all five of my children graduate from Salem High School and go on to follow their dreams: Eric in 1983, Tracy in 1984, Richard in 1987, Betsy in 1997, and Eddie in 2006.

All the students that I have known and taught for the last 35 years. I've enjoyed seeing them mature as stu-

dents: as they went to proms, interacted with each other, planned their futures and graduated. It has been especially gratifying to see them when they return to the library to say hello, and I get the chance to catch up on their lives since graduating.

3) Working with our great staff and the student body for the past 35 years. I'm sure I will find myself reflecting on certain people and situations that will bring a smile to my face as I enjoy retirement.

4) I would have to say the best event that I enjoyed the most is when the elementary students all took part in celebrating Dr. Seuss' birthday with high school students reading Dr. Seuss stories to them.

5) The most enjoyable project for the students was the bringing in of

duck and chicken eggs as the library students waited and watched in anticipation of the eggs hatching.

6) One of the most gratifying projects was building and assembling blue bird houses for the Green Way Trail.

7) Making play booklets many years for Mr. Viencek's plays was always exciting being behind the scenes for the students as they went about preparing for their production. Making the seasonal bulletin boards every year allowed me to express my creative side.

8) During the 05-06 school year I had the opportunity to host an exchange student from Slovakia which broadened my perspective of how eastern Europeans live and think. My son Eddie had the privilege to stay in Slovakia with the family of the exchange student that stayed with us the following year as he studied and lived there.

**Parting Comment:** I've fulfilled my dreams of teaching by being here at Salem High and have enjoyed the teachers, staff, and students for 35 years and would like to wish them all the best in the future.

## Mr. Rich Washinko

**Plans for the future**

Eventually do some part-time individual counseling and continue to do some coaching.

**Positions held at Salem**

High school and junior high counseling  
Head football coach and assistant in both football and basketball.

**Top memories at Salem**

- 1) When a student gave me a "wet willie" in the hallway
- 2) When I coached football, we left

Coach Janofa and Coach Ladner in East Liverpool after the game.

3) Mr. Warren's philosophy on life

4) Math discussions with my two sons  $A^2+B^2=C^2$ ???

5) Mr. Mucci — enough said!

6) All the students and staff at Salem High School and Salem Junior High

**Special Thanks**  
The kindness and compassion that was extended to me during my illness will always be appreciated and never forgotten.

## MESSAGES TO THE RETIREES

**Mrs. Conti-** everyone leaves a legacy. You will be long remembered as an educator who was diligent and dedicated to your profession. As a teacher you expect much from your students; likewise, you have given much to them. Enjoy your well-deserved retirement. —Sir

**Sandy-** I know you didn't want anything in the paper, but I couldn't let you leave without a proper farewell. I have always enjoyed your sense of humor; never lose that. Thanks for all of your hard work with your students. Many of them have shared with me how much they learned from you. Enjoy retirement or whatever else you may have planned. M. Dye ©

**Sandy-** Whenever you are missing school, think of Fluffy and Nickle Dime Quarter Dollar and their goofiness. Anon.

**Mrs Wrask-** You have been an integral part of the Salem Educational system for many years. As an art instructor, you inspired your students with your own sense of style and creativity. And as the high school librarian, you assisted not only the students but also the educators with their many projects and assignments. I will miss our morning visits. Enjoy your family and wonderful pets. —Sir

**Anna -** I'm not sure where to start. You and I go WAY back. We have memories from both the junior high and high school. When you decided to move up here, I guess I just had to follow. I will always remember all of our little talks, your love of CHOCOLATE, and hostas, hostas, hostas! Thanks for all of your hard work over the years. I'll miss you. M. Dye

**Mr. Washinko-** There are a few educators and probably no students who know that many years ago I gave you the nickname of "Frank" from a character in the television show MURPHY BROWN. I have enjoyed our association and friendship all of these years. You have been a true professional. And during your long illness, you inspired each of us with your elegance and class during a most difficult time. I shall miss you. —Sir

**Rich-** We'll miss our daily hugs. Mrs. Frederick

## Mrs. Sandra Conti

By Brooke Skiba

While Mrs. Conti was too modest to wish for a retirement article, *The Quaker* still wishes to honor her for her years of teaching at Salem High School. Mrs. Conti currently teaches integrated science, chemistry, and A.P. chemistry, so she is known by many of those who have been involved in a science class. She is also the head of the CHEM club, which is comprised of A.P. Chemistry students who are recognized by their mole t-shirts. Mrs. Conti previously taught at Columbiana, and it is known that she is also a former art teacher.

Many students would agree that Mrs. Conti is a great teacher. It is obvious that she loves her subject and is very enthusiastic to teach it to others. "I loved making chemistry my sophomore year. The class was extremely fun, especially the labs. I feel as if I earned a lot from Mrs. Conti," says Derek Erskine. While Mrs. Conti's classes do tend to be challenging, students are able to receive a thorough understanding of the material through her teaching style. She explains material in a way that stu-

dents can relate to and understand; for example, the way the electrons are "beebopping" around a nucleus and the bite of the "diatomic beast" are just two of Mrs. Conti's many chemistry similes. Personally, I have many great memories from my two years in her classes. It was enjoyable singing Mole Day songs, doing an experiment to make glow-stick liquid, and doing the many labs in our lab goggles and closed-toed shoes. I've also learned a great deal about the value of hard work from my time in Mrs. Conti's classes, and I'm very grateful to have been in a class that prepared me so well for the future. As Amanda Lydic says, "Mrs. Conti is a tough teacher. But it's because she wants us to do well. She is always willing to answer our questions and help us if we're willing to ask." Mrs. Conti is also a recipient of the Star Educator Award this year for educators who have had a great influence on the education and goals of a student nominator. The students and faculty at SHS wish Mrs. Conti the best of luck in her future and a happy retirement!

**Good luck to Salem retirees!**
